

Discover how POGIL can work for your students

Visit www.pogil.org for additional information.

Are your students

- *Engaging* actively in critical thinking in the classroom and laboratory?
- *Drawing* conclusions by analyzing information and discussing ideas?
- *Working* in self-managed teams to understand concepts and solve problems?
- *Reflecting* on what they have learned and how to improve their performance?
- *Interacting* with an instructor as a facilitator of learning?

JOIN US for a POGIL Workshop

August 22nd from 9AM to 4PM

Blue Bell Campus (In Person Only)

Lunch provided!

The POGIL Project • Box 3003 • Lancaster, PA 17604-3003

The POGIL Project acknowledges the generous support of the National Science Foundation, the Toyota USA Foundation, and the Hach Scientific Foundation.

At this workshop you will:

- *Experience* the POGIL approach while exploring the components of our thoughtfully designed activities
- *Discover* ways to nurture the development of key process skills while continuing to meet rigorous academic standards
- *Address* key points of successful classroom facilitation and facilitation of group work by students
- REGISTER NOW at: https://bit.ly/PC4A_POGIL

Thursday, August 22, 2024
